

Stability Analysis for Microwave Circuits

STAN TOOL

AMCAD Engineering

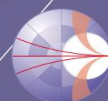

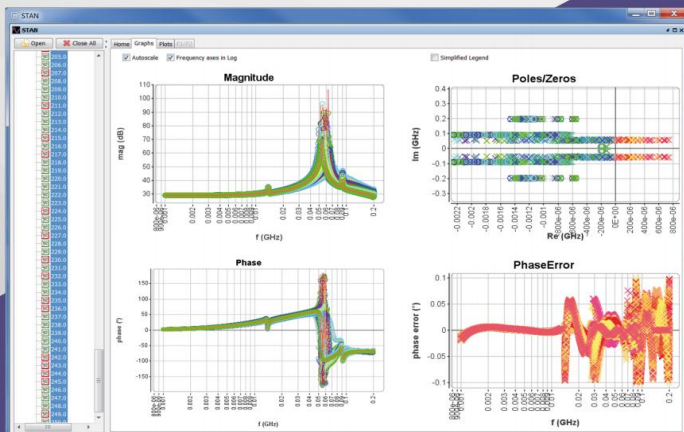

Parc Ester Technopole
20 rue Atlantis
87068 Limoges Cedex
FRANCE

Tel: +33 (0) 555 040 531
Fax: +33 (0) 555 040 531
www.amcad-engineering.com

Key elements

- Linear and nonlinear stability analysis
- Compatible with any CAD tool
- Straightforward analysis on complex circuits
- Relative stability information delivered
- Oscillation mode knowledge
- Deliver Optimum stabilization strategy
- Parametric Analysis implemented
- Monte-Carlo analysis

Secure your
design and save
months on
development
